

# SERVICE TRAINING SEMINAR

**Course Number:** SAP0101SM

**Course Name:** HYBRID VEHICLE MAINTENANCE PROCEDURES

**Course Description:** This course will focus on maintenance service procedures that aftermarket technicians can perform on hybrid electric vehicles. Participants will receive a high-level overview of the operation of hybrid components, related safety concerns, and serviceable systems. These include high voltage system operation, supporting systems such as HVAC and brake systems, and internal combustion engine.

**Sponsored by:**
