COURSE DESCRIPTION

What do you do when the scan tool does not communicate? In this course, technicians will perform on vehicle exercises for the following:

- Network function and diagnosis of network problems
- Diagnosis of serial data failure modes in multiplexed data buses
- Diagnostic techniques on vehicles to help develop problem solving skills
- Power moding, network protocols (CAN, LIN, GMLAN) and repair methods

The information in this publication is current at time of distribution and is subject to change or cancellation.
