Attend this technical training valued at $175 for No Charge Sponsored by JAS

COURSE DESCRIPTION

Course Name: ***Variable Valvetrain Technology***
This training event focuses on the operation and diagnostic procedures of Variable Valvetrain Technology.
Modern engines employ variable valve timing and lift adjustment strategies to improve fuel economy, power, and emissions. Course content includes function and operation of variable valve timing and variable valve lift systems. Additionally, this course highlights the procedures and protocol for proper diagnostic steps, system repairs, service tips, and special tools.
Various Original Equipment Manufacturers (OEMs) will be highlighted.
